M'Alister's All Healing Ointment.

WHEN this Ointment is worn upon the chest and worked into the feet ... it sets up on the organ of the ... that the whole nervous system feels its influence. It moves along on the nerves and thus finds its way to the liver, lungs, stomach and brain ... incrased activity and energy to these organs, until the it separates and is free every impurity of humor that may be lodged there, and expels it to the surface. Hence the extraordinary rapid and certain way which it cures a throat or bowel ... complaint. Also headache agues consumption ... internal diseases.

Its first action is to open the pores of the flesh, impart tone and nervous energy to the skin, and thus open a way to every part of the internal viscera ... expel diseased and impure particles from the system ... performs precisely in sickness what nature performs for herself in health, having the full use of every function of the body.

It is this power which enables the ointment to sweep off all cutaneous eruptions skin diseases of every nature, and to subdue all inflammations fever and all the various complaints—in short to keep the pores of the skin open and restoring health and nervous energy to all the organs of the body.

Mr. James McAlister—Dear Sir—Having purchased a few bottles of your Hair Oil last summer I persuaded my sister who had lost her hair from some disease of the head to try it. She had used Bogle's Hyperion Fluid and several other articles recommended for the hair without any beneficial results, but after having made use of your Hair Oil a short time the hair began to make its appearance and she has now a fine head of hair.

Important to Owners of Horses. Dillow's Celebrated HEAVE CURE!!!

Which has been used with such astonishing effect in France and England for the last twenty years, and now ... for the last two years ... [illegible] ... Month ...

20,000 cases of Heaves
2,000 cases of Chronic Coughs and Colds
1,000 cases of Catarrh and Nasal Gleet,
1,500 cases of Affection of Bronchial Tubes and Glands,
500 cases of Thick and Broken Wind, and
800 cases of Inflammation of the lungs,

Have been cured by this extraordinary remedy since its introduction in the United States. The following is one of the hundreds of certificates in our possession proving its Universal efficacy.

New Scotland, Albany Co., N. Y., February 17 1848

Messrs. Ford & Grant Gentlemen—I herewith transmit to you, my certificate for the benefit of those who may have horses so affected.

I hereby certify that one of my horses in the winter of 1846-7, became afflicted with the heaves in the most aggravated form—which I allowed to run for seven [illegible] four months without doing anything for it. Having had a detailed ... of Dillow's Heave Cure I purchased three packages of it, gave it to him and it entirely removed the disease. From that time ... the present he has been in a perfectly sound condition.

DR. CUMMINGS'S Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine. With these others of vegetable origin are combined designed to render them more active and consequently more immediately effective.

The Dock or rather a species of it now ranks as a medicinal plant second to no one of the vegetable kingdom. With the aid of a distinguished chemist whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time.

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them, which has resulted in the production of the compound. In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract most to be relied on, and least liable to decomposition is procured by subjecting the root to the action of the menstrua usually employed in extracting its virtues, for a long time without heat or any other accelerating agent. None is permitted to be used in the compound, that has not been obtained by this process and that has been less than a year in preparation.

The Compound is recommended for Scrofulas, Erysipelas, Ulcerous affections, Eruptions and Mercurial diseases. Also for the numerous maladies arising from sedentary employments, occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution among which are Neuralgia, Piles, Affection of the Liver, Bilious Complaints and Dyspepsia or Indigestion.

In diseases of warm climates with which the proprietor become familiar in his practice in Havana, some years since, the compound will prove particularly efficacious, both as a remedy and a preventative.

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general, to whom he is known.

COMPOUND SYRUP OF Sarsaparilla and Pipsissewa,

Prepared only by

ALBERT EMERSON,
DRUGGIST AND APOTHECARY
Apothecaries' Hall, 4 Smith's Block, BANGOR.

THIS article is confidently recommended as a cure for all diseases arising from an impure state of the Blood, such as *Scrofula, Salt Rheum, St Anthony's Fire, Mercurial Diseases, Ulcers, Sore ... Pimples and Diseases of the Skin generally*. This Syrup is highly approved by the Medical Faculty, and is recommended as an internal remedy only for the purpose of an alterative, or as one would express the same thing, to purify and renovate the system in all long standing diseases, where the fluids of the body have become vitiated.

Pipsissewa (the *Chimaphila Umbellata*, or *Pyrola umbellata* ...) was first employed medicinally by the Aborigines of America, and was first introduced to the notice of the medical profession in 1803 by the late eminent Physician Dr S L Mitchell of New York. Dr Pereira of London says that it is an alterative in scrofula and in other chronic diseases—it is generally supposed to possess almost specific power, and Dr Paris of London speaks of a practitioner who relies wholly ... upon Pipsissewa by which he is enabled to cure Scrofula in its worst forms.

When taken into the stomach it acts as a tonic, producing an agreeable sensation and assisting the appetite and digestive process. It promotes the action of the secreting organs more especially the Kidneys ... In order to insure esse... the benefit derived from Sarsaparilla, we have combined the Pipsissewa with it ... will promote the good effects of Sarsaparilla.

TO THE AFFLICTED

DR DOUGLASS respectfully informs the citizens of Boston that he may be consulted as to all diseases incident to the human frame at his office,

No. 55 Union Street.

Dr D has been in extensive practice in all parts of the United States, and has now in his possession the best of evidence to show that he is a regular M D. He has been upwards of 40 years in practice. The diseases of females will receive the Doctor's particular attention. He will treat all the diseases on an examination of the eye. This is an advantage that Dr D has above all other practitioners, and which will necessarily do away the necessity of a long and unpleasant explanation on the part of the patient of the disease with which they are affected. The age and length of time the patient has been suffering is all the Dr will require to give them a most thorough knowledge of their complaint and whether or not a cure can be effected.

Dr D has been very successful in the treatment of Colds, Coughs, Consumption, and Liver Complaints, all Pulmonary diseases, Scrofula, Rheumatism, Fits, Dysentery, all diseases of the Eye and Ear, diseases of the Blood, Palpitation of the Heart, Gout, Salt Rheum, Cancers, cutaneous diseases and all affections of the kidneys and bladder, Tic dolorou, Hernia, Abdominal Weakness, Tooth ache, Intemperance, Stammering. Dr D warrants a cure of any of the above diseases, if applied to in season.

He would also respectfully inform the Ladies that he will attend to their diseases and complaints from to 12 A.M and from 2 to 9 P M. A full and general assortment of medicines are kept constantly on hand. Printed directions accompany each bottle or package.

All communications (post paid), with a fee enclosed, will be strictly attended to.

WHIG NOMINATIONS.

FOR PRESIDENT,
ZACHARY TAYLOR.

FOR VICE PRESIDENT,
MILLARD FILLMORE.

"For my part, in the dark and troubled night that is upon us, I see no star above the horizon promising light to guide us, but the intelligent, patriotic, united Whig Party of the United States."
DANIEL WEBSTER.

"If Gen. TAYLOR is elected he will do more to curb the Spirit of Conquest, and check the Spread of Slavery, than any other man the Whigs can elect." JOHN Q. ADAMS.

☞ Every Whig voter in Maine who will vote for Van Buren Electors, or who fails to vote for the regular Whig Electors in favor of Zachary Taylor, is, in his political influence, fifty per cent a Cass man. A plurality of votes elect, and every vote abstracted from the Whig ticket, either by the vote being thrown for another man, or withheld, increases the chances and is equivalent in its effect to adding a half vote to the Cass ticket.

There is too, a responsibility assumed by all such Whigs which it would be well for them to consider. By their efforts to lessen the regular Whig vote, even by failing to cast their ballot for the Whig nominations, they may discourage the efforts of other Whigs, and thus indirectly increase the per centage of their influence in favor of the election of Gen Cass.

Such men would perhaps think it strange or unkind, perhaps, to be called the supporters of Gen Cass, yet if by either of all these means, they give a larger influence, direct and indirect to Mr Cass than for any other candidate, what else are they?

The choice is between Gen Taylor and Gen Cass. This is the plain, sober common sense of the matter, and in reference to this must every voter act. Here his responsibilities rest, and there is no way of fairly dodging them. His vote must be given for Gen Taylor and the Whig cause, or fifty per cent, at least, and perhaps more, of his political influence will be given for Gen Cass and the locofoco cause. This is the result whether he votes or not, or for whomsoever he votes.

This is plain talk upon a plain subject, and there is no getting away from the conclusion.— In reference to this state of the case we ask every Whig to sit down by his own fireside or on his work bench, and go over carefully the whole subject in his mind and make up a calm, deliberate judgment whether on the whole he would prefer a Whig administration, Whig measures and Whig policy with Gen. Taylor, or the administration of James K. Polk, elongated and whipped into radical speed under Gen Cass.

There ought not to be any delay or hesitation about this. The responsibility of it cannot be put away by failing to deliberate upon it—for act or not the result will come. If upon a full and thorough deliberation upon this subject he shall prefer the Whig cause with Gen Taylor to the Locofoco cause with Gen. Cass—and there is practically in this matter, no means, now, of separating these men from the cause which each represents,—then the vote should be given for Zachary Taylor. But if he Locofoco cause with Gen Cass, shall be preferred to the Whig cause and Gen Taylor, then he vote should be given to Gen Cass! Will the Whigs of Maine look at this practical view of their political duty and the effect of their political action?

☞ The Mercury states that Constable Walker returned, per steamer, from Lowell, Mass, on Saturday last, having in his custody a man by the name of Maxwell, whom he arrested for stealing a gold watch and other property, at Katahdin Iron Works. He had his examination on Saturday before the Police Court, and was bound over in the sum of $200 to appear for trial at a higher Court, and for want of security was committed to jail.

"Searching Simon" arrested another man by the name of Bunker, and turned him over to the authorities of Portland, where he had committed crimes. Bunker had committed forgery in this county, but this fact was unknown to constable W. until his return here.

Late from Santa Fe.

SANTA FE, Aug. 1, 1848.

Our volunteer troops have had another severe fight with the Apaches and Eutaws, on the 18th of last month. A party of them that had been committing depredations in the neighborhood of Taos, were pursued beyond the Ratone mountains by Capt Reak, of the Missouri mounted regiment and sixty men. On coming up a slight skirmish ensued, but the Indians instantly retreated, leaving behind some 32 head of horses and mules.

Major Reynolds followed with 150 men, joined the advance, and, with Williams, Fisher, Mitchell, and Kirker, mountaineers as guides, they continued the pursuit, and soon came up with a detachment of the Indians, numbering four hundred strong —a fight ensued, which lasted near three hours, and was ended by the Indians retreating, leaving twenty-five of their number dead on the field— Two of our men were killed and six wounded

From the Louisville Journal

Gen. Cass and his Land Speculations.

Some weeks ago we published a statement in regard to Gen Cass's land speculation whilst he was Secretary of War under Gen Jackson. We stated that he was a member of an association got up for speculating in Western lands; that the association consisted of himself, the Hon Henry Hubbard, the Hon F O J Smith, and the Hon Mr Markoe; that Gen Cass had the selection of the agent of the association, and bound himself to be responsible for his acts; that the the member of the association, after considerable time, made a fruitless effort to obtain a settlement with Cass; that Mr Hubbard wrote to him as a villain, and that Cass was silent under the charge. Our statement was made on the authority of the Hon F O J Smith, one of the members of the association, but we must say in justice to him, that he did not give it in writing.

Mr Kercheval, the agent of the association rejected by Gen Cass, sent us a letter which our readers no doubt remember. That letter, as we stated at the time of its publication, and as we we can prove, came to us in the hand writing of Gen Cass himself. General Cass, in the said letter, writing in the name of Mr Kercheval, denied every portion of the statement published by us, except the main and important fact that, whilst a member of the Executive cabinet, he got up a powerful association for speculation in the public lands.

A few days ago we addressed a letter to Mr Smith upon the subject of the statement published by us, and Gen Cass's denial of it. Mr Smith has answered, and we subjoin his answer. He fully verifies all the material portions of the statement, giving a narrative of the facts, which reads as if it might be relied on implicitly:

To the Editors of the Louisville Journal:

FOREST HOME, near Portland, Me, }
September 1, 1848. }

DEAR SIRS: I am in receipt of your esteemed favor of the 14th ult, which was forwarded from Boston hither, in my absence from both places. In respect to the articles published in your paper elucidating Gen Cass's land operations with Mr Hubbard, myself and others, I have seen only an extract from a single article and am unable to say what extent of error may have crept into the reports on the subject. I have seen an allusion in some papers to a letter from Mr Kercheval, the former agent of the Cass land association, assuming to contradict some one somebody's statement, but of whose or what I am uninformed. For your guidance, and the correction of any misconceptions that have arisen in any mind on the subject, I will state the facts, such as Gen Cass will neither contradict nor authorize any man to contradict for him.— What ever wrong was perpetrated in the matter, apart from the double relation of Secretary of War and purchaser of the public lands, which Gen Cass sustained, and about which each man must reason in his own way, will appear from and in these facts.

The contemplated capital of the association was $220,000. Of this sum Gen Cass subscribed to furnish $20,000, and was reported by the agent, Mr Kercheval, as having advanced $15,000. The agregate purchases were about $15,500 only, the operation having been too much embarrassed by the "specie circular" of July, 1836, to be further conducted to advantage.— Besides Gen Cass went to France early afterward, and the advantage of his operation in the location was lost. Gen Cass was a member of Gen Jackson's cabinet at the date of the circular, and it would be a curious chapter in his history, to operate either for or against him, to coming into that land operation, could it be known whether he did not oppose that measure!

The articles of the association, which it is important for you to understand, required as follows:—

'The agent shall be required to locate and enter public land at the minimum price, to wit, at $1,25 per acre. He shall be at liberty to exercise his judgment in making the locations and entries, and shall be limited in making said entries to the States of Michigan and Illinois, and to the territory of Wisconsin.'

By a subsequent modification of the articles, the purchases of the agent were authorized to be extended into the States of Ohio and Indiana, in addition to the States and territory mentioned, &c.'

The articles further provided:—

'Mr Kercheval shall be employed as the agent of the association, for whose integrity, faithfulness, and punctuality, Mr Cass agrees to be responsible.'

It was out of the departure of Mr Kercheval from the provisions cited, and Gen Cass's failure to make good the consequent damage believed to be sustained by the Hubbard portion of the purchasers interest, that the correspondence of Mr Hubbard with Gen Cass, to which you alluded, arose. The association made a classification of the agent's purchase on the year following their completion, and by lottery, apportioned them among the parties interested, and thus closed up the agency. But as between Gen Cass and the original associates, Mr Hubbard deemed Gov Cass both legally and morally, (under his agreement to be responsible for Mr Kercheval's faithful execution of his agency,) bound to make good the losses arising on investments of the money advanced on extravagant prices, in fancy lots, 'Gibraltar stock,' and like second handed purchases held by other speculators, instead of confining himself to the public lands at the minimum price, to wit, $1,25 per acre, as the contract specifically required, and within the States specified.

To urge this measure of justice was the purpose of Mr Hubbard's letters to Gov Cass, both while the latter was in Paris, and after his return home. Of the purpose of his letters, I derived my information from Mr Hubbard, being interested with him still in the result, though to a small amount compared with his own, and he having the agency at the time of my interest in common with his own. Of the character of these letters, I derived my information from Gov Cass, who informed me they were so denunciatory and abusive that he refused to return answer to either of them and never did so! The letters I never saw, and whether what Mr Cass deemed as offensive was or was not so, in view of the occasion and grounds that gave rise to them, and whether they did or not make out a clear case of Gov Cass's accomplishing through an agent what Mr Hubbard deemed a speculation as severe as you have described it, would best be understood were either Judge Hubbard or Gen Cass willing to furnish copies of the letters Either will deny they once existed, and so offensive in their accusations that Gov Cass refused to answer them, and never did answer them.

What is more, he never has offered, by himself or Mr Kercheval, to make good the money which the latter, as an agent, squandered without authority in 'Gibraltar stock' and other fancy lots, when he was exgressly instructed with it only to purchase 'public lands at minimum prices; which 'Gibraltar stock' and fancy lots remain mostly on Mr Hubbard's hands, at his and my expense, to the present day, worthless and in appreciate—and this in the face of Gov Cass's obligation to be responsible to Mr Kercheval's faithfulness,' &c.

Now such are the facts; such are the sources of evidence of their existence; and, what is more, original documents be needed to substantiate any one of them, except only the unanswered letter of Judge Hubbard to Gov Cass, I have them. Since my name has been drawn into the matter before the public, you are at liberty to make whatever use need may be of these statements to set history right,' only asking to be excused from any voluntary position of unnecessary obtrusiveness on the public. With great regard, in haste, your obedient servant, FRANCIS O. J. SMITH

Snow

The unusual coldness of the atmosphere for some days last week is explained by the fact that snow had fallen in different sections of the country. The mountains back of Cape Chat, Canada, were covered with snow more than a week ago; Mt. Lafayette, in Franconia, was capped with snow on the 19th; the Helderberg mountains, in New York were covered on Saturday, 23d; it snowed fast in Auburn on Friday, 22d, and between East Chatham and Washington the snow was an inch deep on Saturday morning.—Boston Trav.

The cane crop of Arkansas, says the Planter's Banner of the 31st ult, is quite backward and will most undoubtedly be short. We have letters from Rapides, where the crop was excellent, which state that it will be shortened full one half by the late storm, which was very severe in that section

A Soulless Man.

An Iowa stump orator, wishing to describe his opponent as a soulless man, said:—

"I have heard some persons hold the opinion that just at the precise moment after one human being dies, another is born, and the soul animates the new born babe. Now I have made particular and extensive inquiries concerning my opponent there, and I find that for some hours before he drew breath, nobody died. Fellow citizens, I leave you to draw the inference.

How to be Happy.

Do all the good you can. Whenever you hear of a poor widow, orphan child, or aged man who is in affliction, pay that individual a visit. Do not hoard up all you earn; give a certain portion of your property to the poor— Never get angry. If you are slandered or imposed upon, better suffer a little, than to retaliate and use harsh language. Be not proud or selfish. Think no more highly of yourself and your talents than you do of the capacities of others. Pay all you owe. Keep out of debt. Get not entangled in the meshes of the law; avoid it as the sure gate to ruin. Shun vicious pursuits and unprincipled associates. Honor the Sabbath, serve God, and be devoted to truth and religion. Finally, take some useful paper, pay for it in advance, and read it attentively; and our word for it, you will be happy. Peace and contentment will smile in your path, joy dance on your countenance, and every lane of life before you will be fraught with blessings rich and abundant.

A friend of mine once gave me the number and the names of a social club of temperate drinkers which once existed in Schenectady and of which when young, he was himself a member, and I have remarked how bereft of fortune, how bereft of reputation, bereft of health, and sometimes even bereft of reason, they have descended, one after another, prematurely to the grave; until, at length, though not an old man that friend alone remains, of all their number, to tell how he himself was rescued from a fate so terrible, by the timely and prophetic counsel of a pious mother. And I have remarked, too, how those pupils of my own, who in despite of warning and admonition and entreaty, persisted in the use of intoxicating liquors while at college, have on entering the world, sunk into obscurity, and finally disappeared from among those rival actors, once their companions, rising into life; and when searching out the cause, I have, full of anxiety, inquired after one, and another, and another, and the same answer has been returned, 'He has become, or gone a sot into the grave.'—[Rev. Dr. Nott.

Judge not.

Appearances are deceitful. At a distance a dew drop has the appearance of a gem. From various positions, we have entirely different views of the same object. We should not judge a man's character by a single transaction.— Who has not been guilty of that one fault?— Would you judge a forest by a single decayed limb? Would you form your opinions of the ocean by a glass of bilge water? Would you express your opinion of the value of an edifice by one loose stone? Then judge not a man by one act of his life. Condemn him not for one deviation from the path of rectitude. He may have a score of good traits you have not yet discovered. In your estimate of character, it is always christian to lean to the side of goodness. What has been the ruling passion of the man? Has he labored on the side of mercy? Has he endeavored to elevate his fellow creatures?—to suppress vice in every shape? If so, forgive his one error; it is but a feather's weight in comparison to his good deeds and virtuous achievements. To condemn and denounce a man for one hasty word he has spoken, one revengeful sentence he has uttered, one spiteful paragraph he has written, one wicked combination he has entered into, one slander he has repeated, one falsehood he has told, one vicious step he has taken,—is the height of injustice, oppression and cruelty. Not so did the early Christians. Not so did the Apostles.— Not so did the Saviour. Love and forgiveness breathed from their wounded hearts. Imitate them, and judge only by thorough examination and deep conviction of duty, and you never will have the unhappy reflection of those who have been the instrument of driving to destruction, men who but for one fault would have been ornaments to society, and rich blessings to the world.—Toledo Blade

A Fountain in the Wilderness.

We encamped in a beautiful grove, about 3 o'clock, P M, after a march of twenty-two miles; the road had been so good that the wagon-train had kept up in speed with the main body; our tents were soon up, and our suppers cooked early. After supper, about a dozen of us mounted our horses and rode three miles over the prairie, to a basin of water, discovered by the hunters of the day, where they had killed an alligator, about six feet long. The ride was very pleasant, and the basin itself very picturesque. A stream of water pure as crystal, fell over several succeeding shelves of limestone, covered with green moss, into the basin, itself scooped out of the same durable material; this basin was about one hundred and fifty feet long, sixty wide, and ten or twelve deep, and so clear that every little thing could be seen at its bottom; several large live oaks spread their branches over it, and the long Spanish moss trailed down, making a canopy of shade above. This young alligator had possessed this basin to himself, 'monarch of all he surveyed;' but its clearness and beauty proved his ruin.

The Philosophy of a Tear.

Beautiful Tear! whether lingering on the brink of an eyelid, or darting down the furrows of the careworn cheek—thou art beautiful in thy simplicity—great because of thy modesty— strong from thy very weakness. Offspring of sorrow!—who will not own thy claim to sympathy? who can resist thy eloquence! who can deny mercy when thou pleadest? Beautiful Tear!

Every tear represents some indwelling sorrow preying upon the mind and eating out its peace. The tear comes forth to declare the inward struggle and to plead a truce against further strife. How meet that the eye should be the seat of tears—where they cannot occur unobserved, but blending with the speaking beauty of the eye itself must command attention and sympathy.

Whenever we behold a tear, let our kindest sympathies awake; let it have a sacred claim upon all that we can do to succor and comfort under affliction. When rivers of tears have flown, excited by the cruel and perverse ways of man! War has spread its carnage and desolation, the eyes of widows and orphans have been suffused with tears! Intemperance has blighted the hopes of millions, and weeping and wailing have been incessant. A thousand other evils which we may conquer, have given birth to tears enough to constitute a flood—a great tide of grief. Suppose we prize this little philosophy, and each determine never to excite a tear in another—how pleasantly will fare mankind! watching the eye as the telegraph of the mind within, let us observe it with anxious regard, and whether we are moved to complaint by the existence of supposed or real wrongs, let the indication of the coming tear be held as a sacred truce to unkindly feeling, and all our efforts be devoted to the substitution of smiles for tears!

'Pat,' says a Yankee to an Irishman, as they passed a tree, near Harlem, with a rope hanging from one of its branches, 'where do you suppose you would be now if that rope had its deserts?'

'Faith, an' I'd be a walking here alone to New York!'

[For the Whig and Courier.

LINES

Affectionately inscribed to those who will understand the allusion.

"Mother! dost think I shrink to die?
That the deep grave looks dread?
Is't this that sends that heaving sigh,
And starts that burning tear?

"Well, mother, 'tis so lone and still,
That narrow voiceless hall,
Its vision does my pulses chill
And fill my heart with gall.

"Unheard within those silent walls
Affection's measur'd tone,
No sound upon the tenant falls
Who sleeps alone, alone.

"But yet, though thousand memories bind
To me, with powerful sway,
Though Father, Brothers, Sisters, kind,
Allure to longer stay,

"E'en down into that darksome cell,
Mother! my own and true,
I'd not pining go to dwell,
If I might clasp but you!"

Maiden! whose golden dreams are o'er;
Whose life-sands ebb apace,
Now shiv'ring on that boundless shore
Whose surge we all must face;

I'd whisper in this fearful hour,
Of Him, thy tenderest Friend;
Whose love is equalled by his power;
He will his presence lend,

Until that path so dark and chill,
With sunlike radiance glows;
cannot prove a gloomy vale,
Lighted by Sharon's Rose.

Outstretched behold the shelt'ring arms
That mark thy Saviour dear!
old thee no longer from his charms,
But trust without a fear.

THE BEST TRUSS IN USE. W. PHELPS' Patent Concave Spiral Truss and Abdominal Supporter.

YORK CANAL INFIRMARY, 70 Nassau St., May 21, 1842.

Examined Mr. J. W. PHELPS' newly invented Spiral Truss, and concur with Doctors Valentine Mott, and Parker, in their opinions of its principles and structure. Having an inguinal rupture myself, used various kinds of Trusses for the last ten years, included to try one of these, and finding the action of its spiral pressure and the setting of the pad easier than any others, I have no hesitation in recommending it, in preference to any I have seen.

SAMUEL H. P. LEE, M. C. M. S.

W. PHELPS.—Sir—I comply with pleasure request for my opinion of your Abdominal Supporter—Uteri. I have recommended it in and have heard much satisfaction expressed. It is light, keeps its place very well, gives requires, and is not so expensive as to prevent by those whose means are small, and who suffer from Prolapsus. I give to it with my recommendation.

NOTICE.
THE AMERICAN AIR-TIGHT COOKING STOVE, Pierce's Patent manufactured by Johnson & Cox, Troy, N. Y.
The aforesaid Patent having been established by the judgment of the Circuit Court of the United States at Boston, we hereby give notice that GARDNER CHILSON of Boston has the exclusive sale of said Stove for Massachusetts, Rhode Island, Maine and New Hampshire. All infringements on said Patent will be promptly prosecuted. JOHNSON & COX.
Troy, N. Y., July 1st, 1848.

The American
Air-Tight Cooking Stove.
If this is not the best Stove, why do so many attempt to infringe upon it? The suits brought to sustain the Patent, and to stop the infringement, and after a most thorough legal investigation the rights were promptly decided, fully sustaining the Patent.
More than Ten Thousand of these Stoves are now in use. The testimony of this multitude the past year, establishes the fact beyond a doubt that there are more good and useful qualities combined in this Stove than ever was, or probably ever will be found in any other Stove. The flue arrangement is of great value in equalizing the heat, the oven absorbing the steam, causing the bread, &c. to rise and bake light and quick—and bread, puddings, &c. that flavor of the brick oven. The kitchen, for roasting in front, complete. The summer arrangement for broiling, boiling, heating of irons, &c. is admirable. The great economy of fuel, substantial construction and general good quality of this Stove is the subject of universal admiration.
For sale, wholesale and retail, at the Stove, Range and Hot-Air Ventilating Furnace Establishment, Nos 51 & 53 Blackstone Street, Boston. GARDNER CHILSON
sept 27 2m

NOTICE.
WARMING AND VENTILATION, on correct and philosophical principles, as recently adopted by a unanimous vote of the School Committee of the city of Boston, as will be seen in their printed reports of 1847, and which, after being thoroughly tested in public buildings, has been generally adopted to the entire satisfaction of several other scientific committees; and all other gentlemen whose experience has enabled them to become acquainted with the method of warming and ventilating churches, school houses, hospitals, &c. &c., with an abundant supply of fresh and warm air. The fuel not being allowed to come in iron, under any circumstances, the oxygen in the air is not destroyed by coming in contact with red hot iron furnaces.
It has abundantly proved itself to be a complete and perfect system.
The subscriber having had the practical knowledge and experience in the construction of the above named improvements, from the commencement.
Being the inventor of most of the improvements, to be correct in theory and practice.
He will give his personal attention to the erection of his Brick Hot Air Ventilating Furnace, also, his Portable Ventilating Furnace, for Boston School Stoves; also, arranging the Ventilating flues and Ventilators in all parts of the United States—by addressing him at the Stove, Range and Hot Air Ventilating Furnace Establishment, Nos 51 and 53 Blackstone street, where orders will be promptly executed. Broadway School.

THIS institution recently under the care of Mr WETHRELL, is this day opened under the supervision of REV. G. C. V. EASTMAN, formerly Principal of the Litchfield Institute, Litchfield, Conn. He receives pupils of both sexes and pledges his best efforts to render the school worthy of the popular estimation it maintained under his predecessor.

The course of instruction embraces all the branches usually taught in select schools, and the classical studies preparatory to admission to any of our Colleges.

For terms of admission application may be made to the Instructor or to Mr. GEO. R. SMITH

BAY STATE COOKING STOVE

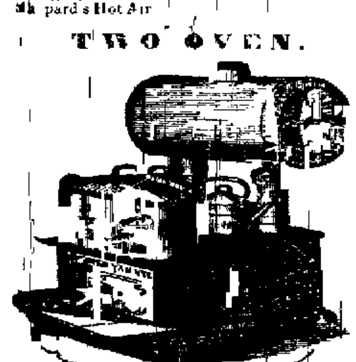

THIS Stove now stands prominent above all others for simplicity beauty convenience and economy. Science and Art have joined hands in the combination of this Stove and given to the world the highest and best specimen of their union that is masterly produced. So universal is the testimony of housewives in favor of this Stove that the purchaser in all cases is allowed to use the same for four weeks and if not found to be entirely satisfactory the Stove can be returned and the money will be refunded and all expenses paid.
This Stove can be instantly changed either to a common draft Stove or to an Air tight. It has the largest oven of any Stove of its size at least ever made and it bakes to a charm. Broiling is effected over the common fire of the Stove. It has four openings or boilers. It is the admiration of cooks and takes the lead ... of every sort of Stove yet constructed. It is believed to be the greatest effort of human skill, not only for its unparalleled convenience ... for its durability and its beauty. It was made to excel all others and all who examine it decide at once in its favor. The public are invited to examine this Stove and by no means to purchase any other until they have learned its merits.

Dr. Townsend's COMPOUND EXTRACT OF SARSAPARILLA,

Wonder and Blessing of the Age.

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—It is six times cheaper pleasanter, and warranted superior to any sold. It cures without vomiting, purging sickening, or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all other medicine is, while it eradicates diseases it invigorates the body. It is one of the very best *SPRING AND SUMMER MEDICINES* ever known it not only purifies the whole system and strengthens the person, but it *creates new, pure and rich blood* a power possessed by no other medicine. And in this lies the grand secret of its wonderful success —It has performed within the last five years, more than 100,000 cures of severe cases of disease, at least 15,000 were considered incurable. It has saved the lives of more than 3 000 children during the two past seasons

10 000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY

Dr Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system lassitude, want of ambition, fainting sensations, premature decay and decline hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

INVIGORATING CORDIAL,

As it renews and invigorates the system gives activity to the limbs and strength to the muscular system, in a most extraordinary degree

CONSUMPTION CURED

Cleanse and Strengthen. Consumption can be cured Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs Asthma, Spitting of Blood Soreness in the Chest, Hectic Flush Night Sweats, Difficult or profuse expectoration Pain in the Side, &c have been and can be cured.

SPITTING BLOOD

New York, April 28, 1847

Dr Townsend—I verily believe that your Sarsaparilla has been the means through Providence of saving my life. I have for several years had a bad cough. It became worse and worse. At last I raised large quantities of blood, had night sweats and was greatly debilitated and reduced and did not expect to live—I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city. I raise no blood and my cough has left me. You can well imagine that I am thankful for these results

Your obedient servant,
WM RUSSELL 65 Catherine st.

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq one of the assistants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter

Blackwell's Island, Sept 14 1847

Dr Townsend—Dear Sir: I have suffered terribly for nine years with the Rheumatism, considerable of the time I could not eat sleep or walk. I had the most distressing pains and my limbs were terribly swollen. I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good. I am so much better—indeed I am entirely relieved. You are at liberty to use this for the benefit of the afflicted. Yours respectfully,
JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it, and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham, August 13, 1847

Dr Townsend—Dear Sir: I have a little girl, seven years of age, who has been several years afflicted with Fits. We tried most every thing for her but without success at last, although we could find no recommendation in your circulars for such a case, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it not only restored her strength, but she has had no return of the Fits to our great pleasure and surprise. She is fast becoming rugged and hearty, for which we feel grateful. Yours, respectfully,
JOHN BUTLER, Jr

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption Barrenness, Prolapsus Uteri or Falling of the Womb, Costiveness, Piles Leucorrhoea or Whites, obstructed or difficult Menstruation, Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness, or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude from taking it at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of Barrenness.—It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed but we can assure the afflicted that hundreds of cases have been reported to us. Thousands of cases where families have been without children after using a few bottles of this invaluable medicine have been blessed with fine, healthy offspring

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period *"The turn of life"* should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life. This period *may be delayed for several years by using this medicine*. Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN.

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child birth ever discovered. It strengthens both the mother and child prevents pain and disease, increases and enriches the food—those who have used it think it is indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—in Costiveness Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, and in regulating the secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful. Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use when applied to the face very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty. It is that which imparts the indescribable shades and flash of loveliness that all admire but none can describe. This beauty is the offspring of nature—not of *powder or soap*. If there is not a free and healthy circulation, there is no beauty. If the lady is fair as driven snow, if she paint and use cosmetics, and the blood is thick, cold, and impure, she is not beautiful. If she be brown or yellow, and there is pure and active blood, it gives a rich bloom to the cheeks, and a brilliancy to their eyes, that is fascinating

This is the reason why the southern, and especially the Spanish ladies, are so much admired. Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step, buoyant spirits, sparkling eyes, and beautiful complexions, they should use Dr. Townsend's Sarsaparilla. Thousands who have tried it, are more than satisfied, are delighted. Ladies of every station crowd our office daily

NOTICE TO THE LADIES.

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuff a *great remedy for females*, &c, &c, and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicines have, since the great success of Dr. Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not. A number of these Mixtures, Pills, &c. are injurious to females, as they aggravate disease, and undermine the constitution.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control, over the most obstinate diseases of the blood. Three persons cured in one house is unprecedented

THREE CHILDREN

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine — They were afflicted very severely with bad sores, have taken only four bottles, it took them away, for which I feel myself under great obligation. Yours respectfully,
ISAAC W CRAIN, 106 Wooster st

OPINIONS OF PHYSICIANS.

Dr Townsend is almost daily receiving orders from physicians in different parts of the Union

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr Townsend's Sarsaparilla and believe it to be one of the most valuable preparations of the Sarsaparilla in the market.

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters, Extracts of Yellow Dock, &c. They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements,—they are worthless imitations, and should be avoided.

CONSUMPTION CURED! *Buchan's Hungarian Balsam of Life.*

THE GREAT ENGLISH REMEDY FOR *COLDS, COUGHS, ASTHMA and CONSUMPTION!*

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases, still stands unrivalled and unsurpassed as the most elegant, agreeable, and effectual curative of those formidable complaints, now known to the civilized world

Three years time of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre eminent merit in all parts of the country, as the great and only reliable remedy in the worst cases of pulmonary disease, and the best and most agreeable curative of all the slight forms of colds, cough and inflammations that can possibly be used.

INCONTESTIBLE PROOFS

Of the efficacy of this Balsam in the worst forms of Consumption

IMPORTANT MEDICAL TESTIMONY !

Dr. Bradlee—Dear Sir: The Hungarian Balsam is, beyond all question, a most perfect and admirable preparation for diseases of the Lungs. I have used it in my family and in my professional practice for more than two years with the most positive and entire success, in cases of *severe Pulmonary disease*, and I can conscientiously recommend it to all who need it, as the most certain remedy for such diseases with which I am acquainted. Yours respectfully,
FREDERIC I STOREY, M D.

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

[From the Christian Freeman.]

While we repudiate quackery, we are always pleased to give credit for that which is truly useful, and to give information which may benefit others. A few days ago a brother of ours, from Norway, Me, came into our office in comfortable health, whom we had not expected to see again on earth. We first saw him a few weeks since, from another brother residing in the house with him, saying that he was confined to his bed and could not probably continue until a short time. Judge then of our surprise when we saw him enter our office. He has a slight cough remaining, as it would be natural that he should have, until he had further time for acquiring strength of lungs. But he is in comfortable health. The following letter which he addresses to the general Boston Agent for the medicine which has restored him so wonderfully, will show what medicine has been the instrument of the good work.

Boston, Feb 18 1847.

Dr D F Bradlee—Sir—I cannot refrain communicating a word to you in commendation of Buchan's Hungarian Balsam of Life." Here is a plain statement of facts in relation to my case and if they are of any service in inducing the sick to seek relief at the source from whence I obtained it, I shall be thankful.

My residence is Norway, Me. Three years ago last fall I took a violent cold which left a cough of the most aggravating kind, accompanied by a severe cold in the head. In June I had become so feeble that I was obliged to quit all work, and was confined to the house until about four weeks since. During that time I received the best medical attendance and tried nearly all the medicines which are usually used in such cases but could find no relief, until I was worse, and for the last three weeks was confined to my bed. I was of my physicians gave me up as past recovery. But as fortune would have it, I heard of the Hungarian Balsam, and immediately procured a bottle. This gave me instant relief, and it has broken up my cough, and placed me in a situation to resume, with advancing health, my usual occupation

BE WISE TO-DAY !

Delay in any case of Consumptive tendency is emphatically Death, and in all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms ... be advised in time

Patent Mill Wheels.

Timbey's Patent

Two Vent Cast Iron Water Wheels

—for—

SAW MILLS,

Invented by T. R. Timbey of Cato N. Y.

THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in *Competition* with all other popular

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them with the same head and quantity of water applied as possessing and continuing *more Strength and Speed* and giving a more *uniform* and *Steady Motion*. In and out of the cut (and therefore not liable to break cranks) and will also run *longer* and *Saw more Lumber* under a low head than any other Wheel in use

Another advantage which this Wheel has over others is that it is constructed with but two Vents for the discharge of water which makes the apertures larger and allows the "drift stuff" to escape without clogging up the Wheel

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere

We would also call the attention of Mill Owners and Operators to

Valentine's Patent

Reversing Centrifugal Water Wheel,

—FOR—

"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel, for perpendicular Shafts now used

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by ITHAMAR A. BEARD Esq *Civil Engineer* of Lowell Mass who is well known as one of the most Scientific and experienced practical Engineers in this country.

"This wheel is formed with curved floats the number depending upon the size and vent of the Wheel, each extending so far around the Wheel that when the water arrives at the jet its pressure is so far expended that it falls very nearly inert from the Wheel. The Wheel is inclosed in a cylindrical wooden curb or flume, in which the water stands at its full head, the column being sustained by the stationary plate underneath the Wheel so that it has no downward pressure upon the Wheel, which stands perfectly free in the column of water, and by this arrangement all the friction on the step and bearing of the Wheel is avoided, and so much of the power saved, which in the ordinary mode of operation is wholly lost

"This Wheel is adapted to low as well as high heads of water and will run as well in back water as out of it, providing the head rise in a freshet as fast as the back water. But a Wheel with the jets rightly gauged for a high head will not answer for a low one, and vice versa, for as the head increases, the width of the jets should be proportionably decreased, so that the water may not issue to waste, and not give its best effect to the Wheel

"In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless is less liable to need repairs, easily accessible when they are needed, costs much less in the outlay, is much more durable, and takes very much less room in a mill or shop —Simplicity of structure, durability of parts, convenience of application and excellence of power are the grand points of recommendation for this Wheel.

Certificate from Col Tate editor of the Columbia Democrat, Pa.

OFFICE OF THE COLUMBIA DEMOCRAT,
Bloomsburg Columbia Co Pa,
March 4 1843

Dr William Wright—Dear Sir—I am one of the many whose aversion to quack nostrums has deprived them of the benefits resulting from the use of good medicines. Acting under this influence, I have seldom resorted to the Pill box. Last March when you commenced advertising in my paper, I was induced to give your Indian Vegetable Pills a trial, and after having fairly tested their merits for myself and family gave them a decided preference over every other preparation

In every instance when afflicted with sick head ache, or when the stream of life was encumbered with morbid humors I found speedy relief from the use of your Pills. By taking from four to six on going to bed when indisposed, I have always been restored to health, without loss of time and without the expense of a physician. Wright's Indian Vegetable Pill possess the distinguished merit of operating effectually, without disturbing the rest of the patient, and in my case without producing even sickness at the stomach

Respectfully, your friend, &c
LEVI L TATE

[From the Delaware Express Delhi N Y]

WRIGHT'S INDIAN VEGETABLE PILLS—Although not particularly friendly to patent medicines we must confess that we have become a convert to these pills having had an opportunity on one or two occasions to test their efficacy. For a gentle medicine, one or two will be found mild though effectual. Where bile or other impurities have accumulated and more thorough medicine is required a dose of three or four of these pills taken on going to bed, will be found effectual in cleansing the stomach and restoring the bowels to a healthy state. We speak from experience, and take pleasure in commending the pills to the public

Look out for Counterfeits!

Some are coated with sugar, others are made to resemble, in outer appearance the original article. The safest course is to purchase from the agents only one or more of whom will be found in every town and county in the State

PRIAM OF TROY

AIR TIGHT COOKING STOVE,

IMPROVED FOR 1848.

Combination of the greatest improvements of the age—Four sizes.

THIS Stove commends itself to the attention of Ladies and Gentlemen who are interested in cooking and *domestic Convenience* with their Domestic Affairs. As all food passes the ordeal of some Cooking Apparatus to make it palatable or proper for use it is very important that every family should possess the Best Apparatus for this purpose and which at the same time shall consume the *least* amount of Fuel or incur the *least expense*. The

PRIAM OF TROY IS THE STOVE

For it has a very LARGE OVEN probably as large as in any (equal size) Stove, ever offered to the public which is heated quickly and perfectly even by means of **Deep Hollow Grooves,** in the back and bottom of the Oven, exposing from *three to four hundred* square inches more surface to the Oven than can be done by a plain surface. Consequently a very small amount of fuel being arranged in this Air Tight Stove, and applied to the Oven renders it one of the *BEST BAKING OVENS* to be found in New England

There is a Set of large Rims or Rings connected with the Stove so that our Farmers and all who wish to use large Brass or Iron Kettles or any kind of old fashioned Ware, holding from one to ten pails can do it at their pleasure. The whole Stove is regulated by means of only ONE DAMPER, is neat in its appearance and in fact is one of the *best Companions for the Kitchen* now in use, as thousands who now have them will testify
